

INDIAN FIELD HOMEOWNER ASSOCIATION
TRASH REGULATIONS

In response to resident complaints about certain quality of life issues related to trash, the following resolutions have been passed by the Board of Trustees and take effect immediately:

A) Household trash consisting of food or any organic waste must be sealed in plastic trash bags and then put into a trash can that contains a lid. (There are bear proof lids that are available from the township).

B) Trash cans must have the lids on them and be completely sealed to avoid any animals or birds getting into them.

C) Trash may not be put outside before the trash pickup day morning at 5:30 am. This is to prevent the bears, and other animals from getting into it over night and scattering it over the lawns and streets.

D) Empty trash cans must be placed back in your garage by no later than 10 pm Friday evening.

E) If you have a tenant or guest in your home, please be sure that they are aware and will comply with these procedures. Send them a copy of this notice.

In the interest of maintaining a safe and sanitary community, the Board feels that after the first warning letter any subsequent offense will result in a \$25.00 fine.
